

If God has given K-Love the ability to stay on air by being a listener supported radio station for such a long time, What right do you have to take that away? The local christian radio stations target either the younger generation or they focus on just Gospel. K-Love targets all christian groups with a great mixture of music for the whole family to enjoy together. K-Love has served as my local radio station since I have become a christian in 1999. I am 24 years old and do not listen to any other kind of music or stations. Not only has it reached me in all degrees and levels of life, it has reached many other listeners of K-Love. K-Love is so significant to the publics interest because it helps shape better people. Even if you are not a christian you should understand that this station opens peoples eyes to important issues, and helps form better people in society. Please do not take away this wonderful and important radio station. Think of our future and your childrens future. What kind of music do you want your children listening to? I for one want my childrent to hear K-Love, a family friendly network!
